

THE SDA SLICE

On Thursday, our 5th to 8th grade students visited the BECQ Laboratory for a tour and to learn about the water testing procedures here on the island. They were able to see how the scientists check for the presence of harmful chemicals and bacteria. They made a good impression on the BECQ coordinator with their great interest and interaction with their staff. The coordinator even offered our students full scholarships if any one of them will pursue a degree on Microbiology or Chemistry!

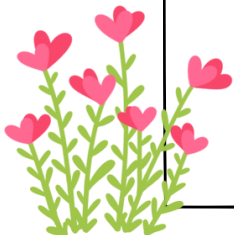

Bible Verse

“All people are like grass, and all their glory is like the flowers of the field; the grass withers and the flowers fall, but the word of the Lord endures forever.” And that word is the Good News that was preached to you.

1 Peter 1:24-25

The kindergarten students were singing "Full Armor of God" during chapel on Wednesday.

On Thursday, students from the 1st and 2nd grade rendered a special number called "Peace in Christ"

A 3rd grader singing "Great Are You Lord" during chapel last Monday!

The 7th and 8th graders had a classroom Food Contest in health class to help understand a balanced diet. Each group prepared a complete meal which included all the food groups and also had to make sure it was nutritious, colorful, and tasty.

5th and 6th singing "We are the World" to close off our amazing spiritual emphasis week.

Since January, Ms. Kianna's after-school Arts and Crafts class has been creating artwork and games with paint and nature. Here is a fun picture of our students making a big banner to display their talents!

Our elementary students had a great time playing with these cute puppies. What a fun brain break!

This week was our Spring Spiritual Emphasis. Every day covered a different topic that explains the authenticity of the Bible. The five-day lineup is as follows: Scripture is validated by philosophy, science, archeological finds, prophecy, and textual criticism.

REMINDER:
Kindly collect
your student at
the front gate
during the
dismissal.
